

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	1 NOVEMBER 2025
Team ID	NM2025TMID07302
Project Name	Calculating Family Expenses using Service Now
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	ServiceNow Setup	Set up Personal Developer Instance
FR-2	Update Set Management	Create and activate update set
FR-3	Table Creation	Create Family Expenses table with auto-numbering Create Daily Expenses table with auto-numbering
FR-4	Relationship Configuration	Configure relationship between Family and Daily Expenses Add related list to Family Expenses form
FR-5	Business Rule Automation	Create business rule to automate insert/update actions
FR-6	Budget Monitoring	Configure alert when expenses exceed budget
FR-7	Reporting	Generate categorized expense reports

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system will provide user-friendly forms and clear related lists for easy data entry and review.
NFR-2	Security	Only authorized users will have access to configure or modify expense records and settings.
NFR-3	Reliability	The system will accurately maintain relationships and business rule triggers without data loss.
NFR-4	Performance	The system will process record creation and form loading within acceptable response times.
NFR-5	Availability	The solution will be available during PDI uptime without downtime for core operations.
NFR-6	Scalability	The solution will support additional expense records, families, and reporting requirements as needed.
